

Sexual Misconduct Survey Access, Culture & Community Survey

Whether it's preparing for legal requirements or responding to issues on campus, climate surveys are considered a critical step in understanding how to promote a safe and equitable environment. Our team created some of the largest educational surveys in the country. We have harnessed that expertise to carefully fine-tune an affordable survey package that is highly effective at pinpointing specific and workable actions, accessible to all schools.

COST-EFFECTIVE

We've made it our mission to design a survey package that can significantly drive change yet remain low cost, requiring minimal personnel so that your organization can gather important data within your budget and timeline.

EASY TO COMPLETE

Our team of scholars and practitioners have honed the questionnaires to be concise and efficient, providing essential data in approx. 15 - 20 minutes, contributing to higher completion rates.

STUDENT & EMPLOYEE SURVEYS

We offer four customizable surveys: Employee and Student Access, Culture & Community Surveys or Sexual Misconduct Surveys, providing you an effective response to harassment and discrimination.

PROMOTIONAL MATERIALS

Grand River Solutions includes customizable digital and printable materials for campuses to promote the survey and we make recommendations on effective incentives.

BRIEFING & CUSTOM RECOMMENDATIONS

We analyze and present your data with actionable recommendations specific to your campus. To create your custom report, we can resource our team of the nation's top experts in Title IX, Equity, and Safety.
